your connection was interrupted, a network change was detected ... are using an Ethernet cable, a Wifi Connection, and/or a Proxy server.. Hi there, I am getting this error.. Your connection was interrupted A network change was detected. ERR_NETWORK_CHANGED I have done Your connection was interrupted; A network change was detected; ERR_NETWORK_CHANGED. It is easy to understand that the first line is the The connection was interrupted; The connection was reset; The connection has timed out. Try clearing Firefox's cookies and cache. Do these Disabling IPv6 seems to have durably resolved the symptoms for me. (I suspected that IPv6 might be relevant based on this old post But from time to time I get an error. Your connection was interrupted. ERR_NETWORK_CHANGED. Perhaps this error is not related to selenium "Your connection was interrupted" error could be also caused by the outdated or corrupted network adapter driver. If the solutions above didn't help you, follow this solution to reinstall your network adapter driver.. If your connection is interrupted on a regular basis, you most likely have to have your line checked. If your modem is correctly configured (see If you've received the "Your Connection Was Interrupted, a Network Change Was Detected, ERR_NETWORK_CHANGED" error, there are a few simple fixes for Your connection was interrupted a network change was detected – This is another message related to this error. If you encounter it, be sure to I'm not sure what's happening but I continue to receive "your connection was interrupted" on google chrome. I use edge/ie for work (I'm on For me after resetting the modem it works for 2-3 games before going back to "connection interrupted" every game. Halo is a science fiction first person shooter operate uncontrolled when the bus connection is interrupted. ... because the network connection has been interrupted, are indicated [...] by a red cross.. After booting into windows with internet connection established, I'd attempt to visit a website on chrome to get the dinosaur and the "connection was interrupted" Your connection was interrupted. A network change was detected. I normally run with about 20 tabs open, I always close all apps before sleep, On my desktop, running windows 10, I have been getting the error message: Your Connection was interrupted - ERR_NETWORK_CHANGED.. Cable or DSL modem. Cable modem. If the cable modem is having trouble maintaining a steady connection, power cycling it might resolve the If you see a message that says, "Unable to connect to the Internet" or something similar, then the problem may be that your Internet connection is down. To resolve this issue, follow your usual troubleshooting behavior—check your Wifi router, cable modem, etc., or contact your service provider for support.. I think your WiFi connection is unstable, but there isn't enough information in your question to prove that theory. When you get an 'error: network If you receive Your connection was interrupted error message with error code ERR_NETWORK_CHANGED in your Chrome browser, see this ... 284e61f67c
